SUMMARY

Full Stack Developer with experience in building web applications using React, TypeScript, Node.js, and NestJS. I hold a technical background in Informatics and am currently pursuing a Bachelor's degree in Information Systems at the Federal Institute of Bahia (IFBA).

I am committed to continuously enhancing my knowledge of software architecture and development best practices, contributing to the creation of efficient, scalable, and maintainable solutions.

SKILLS

Frontend:
React, JavaScript, TypeScript, Tailwind CSS, Styled Components and TanStack.

Backend:
Node.js, Express.js, NestJS, AWS and Jest.

Databases:
PostgreSQL, MySQL, SQL Server and Drizzle ORM.

Tools & Methodologies:
Git, GitHub, Docker, Azure, SonarQube, Figma, Scrum and Kanban.

PROJECTS

Ticksy - Help desk system

Stack: React, TypeScript, TanStack, Tailwind CSS, NestJS, PostgreSQL, Drizzle ORM.

- Development of a system for opening, assigning, and tracking support tickets, featuring access control based on user profiles.
- Implementation of dashboards with ticket metrics and real-time notifications using Server-Sent Events (SSE).
- Development of REST APIs with JWT authentication, data persistence in PostgreSQL, and endpoint documentation using Swagger.

EXPERIENCE

Full Stack Developer - Intern *Feb. 2025 — Present*

CEPEDI – Center for Research, Technological Development and Innovation

- Build and maintain web applications in React, TypeScript, and NestJS used by thousands of users, including ERPs that organize production and processes for industrial companies.
- Implemented authentication with AWS Cognito and role-based access control, ensuring each user can only access what their role allows.
- Built screens and forms with data validation for varied business rules, blocking invalid input at entry and keeping the experience consistent across modules.
- Developed REST APIs and integrations with external services in NestJS, plus data modeling and queries in PostgreSQL and SQL Server (Drizzle ORM and TypeORM), preserving data consistency and integrity.
- Structure code with Atomic Design and SOLID principles, favoring reusable components that make maintenance and new features easier to deliver.

EDUCATION

Bachelor's degree in Information Systems *2026 — Present*

Federal Institute of Education, Science and Technology of Bahia - IFBA

LANGUAGES

English — Intermediate *Skills in reading technical documentation and communication.*

Spanish — Intermediate *Vocabulary knowledge and reading comprehension.*
